Let's just start off with yesterday I'm trying to be there for you and you're just ignoring me being short with me but then when Blair gets on the phone you just start being all talkative and fun which I'm trying to let slide because you are going through shit but then we get to your house and I'm still there for you and I'm there at your house all day and I literally just asked if you could watch a movie with me at night but that's always too hard for you all of a sudden you just wanna go to bed early as fuck and be lame about it like we're not gonna be like this forever like we need to watch movies and have fun some nights and I tried to sit and hopefully you were just understand and come back with me but no you decide to just stay there for Hella long and when you come back you don't even try to give attention you just make it so much worse and then you let me go to bed mad like you wonder why I slept on the couch because I obviously have a problem but you didn't even try to think about that then in the morning You don't even say good morning or give me a hug you just continue to make it worse like no

U rudely wave ur feet back in forth in my face
I tell u to move them
U proceed to wave your feet in my face
I can't physically see the tv so how would i watch a show
I get up get my joint go to sit back by u
And u taking up the whole couch
So i sit on the other one then u demand i turn the show off

What: is communication we both need to do more listening not reacting. Ik your talking ab just me but we are BOTH in a relationship ans this need to be fixed together.

How: im not going to react. Actions speak louder then words. I will listen when u need me to and try my best so this dosnt happen

And calling me names hurts me but ik you dont care
